

## Electronic Statements

I agree to receive an electronic statement as my preferred method of receiving my periodic financial statement.

I am required to have a current version of software capable of reading PDF documents to view your statement.

I understand that I can contact the credit union at any time to change my statement option and receive a paper copy of my periodic statement.

It is my responsibility to make sure the email address you entered is correct. If the statement notification email comes back undeliverable you will receive notification by mail.

Once you receive an email that your statement is available this will be the area you can view or download your eStatement. You must first login to your Online Banking account at [www.simplicity.coop](http://www.simplicity.coop) or through the mobile app.
