

## Electronic Statements

I agree to receive an electronic statement as my preferred method of receiving my periodic financial statement.

I am required to have a current version of software capable of reading PDF documents to view your statement.

I understand that I can contact the credit union at any time to change my statement option and receive a paper copy of my periodic statement and be charged a fee.

It is my responsibility to make sure the email address you entered is correct. If the statement notification email comes back undeliverable you will receive notification by mail and charged a fee.

Once you receive an email that your statement is available this will be the area you can view or download your e-Statement. You must first login to your Online Banking account at [www.simplicity.coop](http://www.simplicity.coop).

Next, you hover over the Additional Services Button.  
Then you click on the E-Statement button. Next you will see a screen similar to the image below, click "enter".
